

A low-angle, close-up shot of a sailboat's mast and sail. The sail is white with dark horizontal stripes and is partially unfurled. The mast is dark and extends upwards. The background is a clear, deep blue sky. The foreground shows the dark blue, choppy surface of the water, with some white foam from the boat's wake visible on the right side.

NAVIONICS®
2022 CATALOGUE

An aerial photograph of a coastal region with clear turquoise water and several rocky islands. A small white boat is visible in the water. The sky is blue with scattered white clouds.

INTRODUCTION

escape the ordinary.

Whether you’re adventuring on the high seas, cruising in home waters, fishing on your new favourite freshwater lake or piloting a commercial workboat, your chartplotter deserves the best, most up-to-date cartography and navigation data available. Since Navionics and Garmin came together, we have been combining the best of our data and technology to produce superior cartography products for boaters all over the world. And now, with Garmin and Navionics integrated mapping solutions, we’re making it even easier to choose the navigation features that best match your plotter, your priorities, and your price range.

Map coverage areas are now aligned across standard and premium cartography for all Navionics branded products — with combined coastal and lake content, making it simple to access your chosen map areas. See all the best places that water can take you. And plot your course with the world’s #1 choice in marine mapping¹.

¹Based on 2020 reported sales

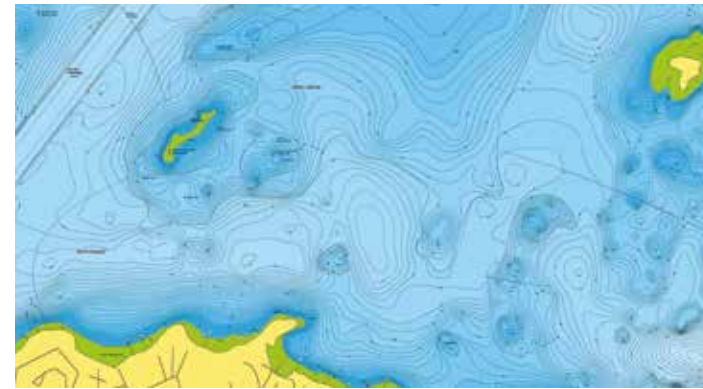

NAVIONICS+ CARTOGRAPHY

NAUTICAL CHART

Essential cartographic reference detail for cruising, sailing and fishing: port plans, safety depth contours, marine services and navigation aids.

SONARCHART™ HD BATHYMETRY

For improved fishing and navigation, SonarChart™ HD bathymetry maps display up to 0.5 metre contours for a more detailed depiction of bottom structure.

COMMUNITY EDITS

Download the Community Edits content layer to any Navionics card and view this valuable, local information contributed by Navionics Boating app users on your compatible chartplotter.

INTEGRATED MAPPING FOR THE WIDEST RANGE OF CHARTPLOTTERS

It's all about knowing your way on the water — with cartography you can trust. That's why the boaters who trust and rely on the Navionics brand have made it the world's #1 marine mapping*. Seamlessly combining offshore and inland content, this all-in-one solution offers clear, reliable cartography for the widest range of chartplotter brands. Navionics+ and Platinum+ cartography is available on microSD/SD cards for easy installation on your compatible marine device.

Start out from day one with up-to-date charts. An inclusive one-year subscription provides access to daily updates, advanced features and so much more. Plus, all new coverage areas are aligned across standard and premium products, with combined coastal and lake content, making it easier to choose the right mapping solution for your needs.

The same detailed marine and lake charts are also available with the Navionics Boating app on your Apple® or Android™ mobile device. Simply download the app and purchase your charts of choice to access top-of-the-line maps right from your phone or tablet.

NAVIONICS+

For offshore or inland waters, this all-in-one solution offers detail-rich integrated mapping, 0.5 metre HD contours, advanced features¹ such as Dock-to-Dock route guidance technology¹, and access to daily updates via the Navionics Chart Installer software.

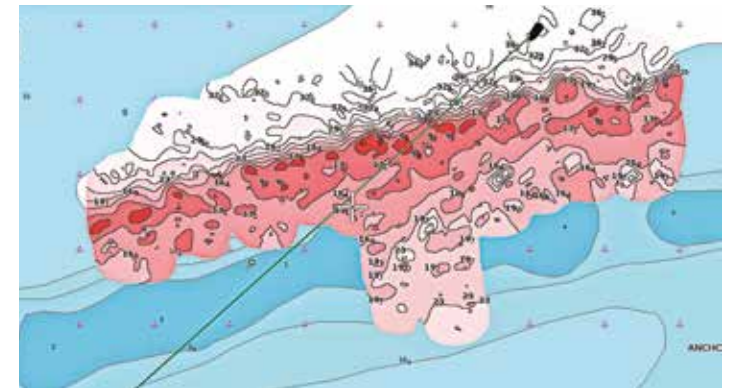

DOCK-TO-DOCK ROUTE GUIDANCE

Navionics advanced route guidance technology¹ uses your boat settings, along with chart data and frequently travelled routes, to calculate a suggested path to follow from start to end point.

ADVANCED MAP OPTIONS

Change the way you view Navionics charts and focus on the details that matter most to you. Highlight shallow areas, adjust contour density or select a fishing range.

SONARCHART LIVE MAPPING FEATURE

Create your own maps on the fly. Watch new 0.5 metre HD bathymetry maps develop in real time as your boat moves along the water.²

PLOTTER SYNC

Transfer routes and markers, update charts and more between your plotter card and your Navionics Boating app — wirelessly. You can even activate or renew your cartography subscription and upload sonar logs.

NOTE: Navionics+ and Platinum+ cards are not compatible with Garmin chartplotters

PLATINUM[®]+ CARTOGRAPHY

PLATINUM+ OVERLAYS AND FEATURES

Designed with the most demanding boaters and serious anglers in mind, all the marine content of Navionics+ is enhanced with additional viewing options that take your boating experience to the next level.

PLATINUM+ INTEGRATED COASTAL AND INLAND LAKES COVERAGE

A comprehensive, all-in-one map solution, Platinum+ cartography combines premium marine content on oceans, major rivers and seas with freshwater inland mapping for more than 42,000 lakes worldwide.

RELIEF SHADING

The Navionics relief shading feature brings bottom detail to life, from shallow flats to deep offshore canyons, in a vivid, colourful representation that helps boaters gain a better understanding of bottom topography. Available in selected areas. Visit www.navionics.com for more details.

SATELLITE IMAGERY WITH SONARCHART™ SHADING OVERLAY

Created from SonarChart 0.5 metre contour data, varying shades of blue reveal changes in depth such as channels and drop-offs. This improves situational awareness and give clear, visual clues to fish-holding structure.

3-D VIEW

Dynamic 3D View allows customizing of the chart to highlight key features for a better awareness of the surroundings.¹

AERIAL PHOTOGRAPHY

Aerial and panoramic photography of ports, marinas, bridges, docks, boat ramps, dams and navigational landmarks offers superior situational awareness

¹ Compatibility with 3D View varies depending on the chartplotter model

NAVIONICS BOATING APP

For cruising, fishing, sailing, diving and all your other activities on the water, the Navionics Boating app brings detailed offshore marine and inland lake charts to your mobile device, so they're on hand wherever you go. As a companion to the chartplotter or on its own, the app delivers detailed chart content and useful functionality in a convenient and easy to use format.

In addition to all the great chart content, your one-year renewable subscription lets you access daily updates and powerful advanced features before, during and after your trip.

ADVANCED NAVIONICS BOATING APP FEATURES

Relief shading overlays use colour and shadow to provide boat owners with a better understanding of bottom topography for improved fishing and diving.

Dock-to-Dock route guidance helps you start your trip with a suggested route from point A to B, based on chart data and navigation aids.

The Connections feature keeps you in touch with your friends and fellow boaters. Share your live location and tracks, routes and markers.

Local edits from Boating app users and the ActiveCaptain Community are integrated within the app.

SonarChart™ Live mapping feature lets you create your own 0.5 metre contour HD bathymetry maps in real time while navigating.¹

Access real-time weather data, daily and hourly forecasts, as well as wind, weather buoys, tides and currents overlaid on your map.

The Boating app is available as a separate purchase for Apple® and Android™ devices and offers a free trial before subscribing.

¹ Compatibility with Navionics advanced features varies depending on the chartplotter model

COMPARISON

CARTOGRAPHY SOLUTIONS FOR NAVIONICS COMPATIBLE CHARTPLOTTERS¹

Featuring integrated offshore and inland mapping content, Navionics all-in-one Navionics+ and Platinum+ cartography products offer daily chart updates and many useful features.

MARINE CARTOGRAPHY COMPATIBILITY

The Navionics+ and Navionics Platinum+ cartography products are available on microSD/SD cards for easy installation on your compatible marine device¹. These solutions offer detail-rich integrated mapping, 0.5 metre HD contours, advanced features such as Dock-to-Dock route guidance technology², and access to daily updates via the Navionics Chart Installer software.

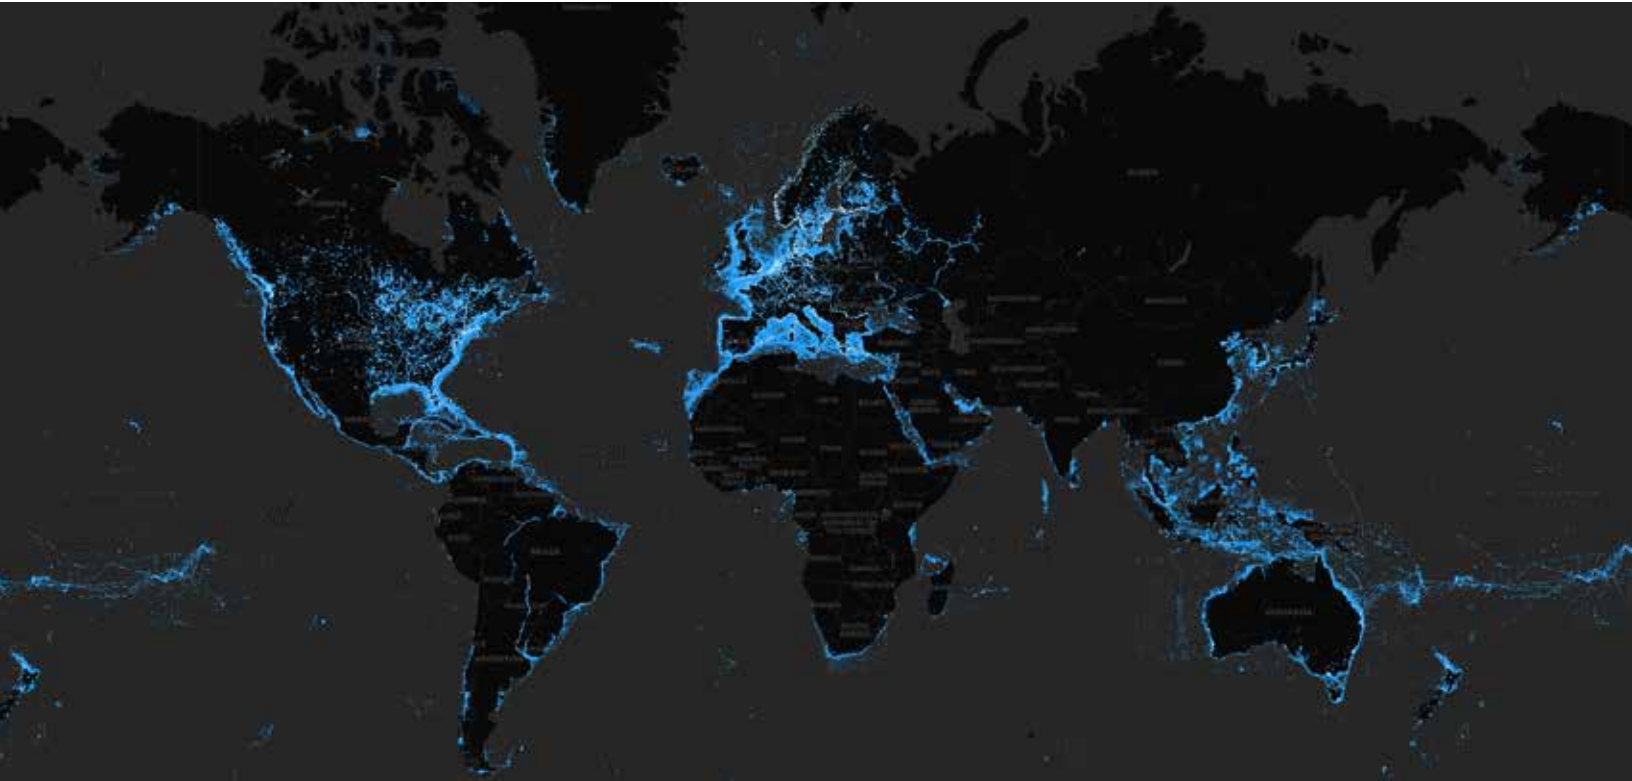

Check [Chartplotter Compatibility](#) at Navionics.com.

¹Navionics+ and Platinum+ cards are not compatible with Garmin chartplotters.

GET UPDATED CHARTS EVERY DAY

EVEN ONE SMALL CHANGE CAN MAKE A BIG DIFFERENCE - WE MAKE UP TO 5,000 PER DAY

We redraw shorelines, refine bathymetry, update Notices to Mariners and marine protected areas, integrate changes to navigational aids, marinas, docks, boat slipways, reefs, rocks, wrecks, and fish attractors.

Visit Navionics.com to see worldwide updates on our Heatmap, view the latest charts on our Chart Viewer, and download them anytime.¹

¹An active subscription is required.

SUBSCRIPTION ADVANTAGES

START OUT FROM DAY ONE WITH UP-TO-DATE CHARTS.

We make it easy for boaters to always have the latest content by including a one-year, renewable subscription to daily updates and advanced features with our plotter cards and mobile apps.

NEW NAVIONICS CARDS

Simply activate your subscription using the Chart Installer. Go to navionics.com → My Card → Activate/Update.

After one year, ask your dealer about the best discounted update option for you. Or visit navionics.com → My Card → Renew for discounted renewal options.

Older Navionics cards can also be activated with subscription renewals.

OWN A CARD FROM ANOTHER BRAND?

Use it to save up to 50%. Check navionics.com/other-brands, use the QR code or ask your dealer.

HOW TO CHOOSE YOUR GPS PLOTTER CHART CARD RENEWAL OPTION TO SAVE UP TO 50%?

- **ASK YOUR DEALER**
Visit your favourite Navionics dealer and ask about your update and/or upgrade options.
- **A NEW CARD AT HOME**
Starting from a week before your subscription expires, you can order a new card from navionics.com and have it shipped to you.
- **RENEW ONLINE**
Do it online, directly on your current card without the need of extra packaging or shipments. Renew and you're ready to go. Check navionics.com/fin/renew-subscription or use the QR code.
